v2.8.0	2025-05-13	v2.8.0: Fix regression with product updates	138
v2.8.1	2025-05-15	v2.8.1	12
v2.8.2	2025-05-16	v2.8.2	9
v2.8.3	2025-05-22	v2.8.3	57
v2.8.4	2025-06-05	v2.8.4: Strengthening of cart-completion flows	38
v2.8.5	2025-06-25	v2.8.5: Tax-inclusive Promotions, Improved Product...	98

Key Insights

- Documentation Focus: 33.2% of all changes were documentation-related, showing strong commitment to developer experience
- Feature Development: 25.4% of changes were new features, indicating active development
- Stability Focus: 22.8% were bug fixes, showing attention to stability and quality
- Regular Releases: Consistent release cadence with frequent updates
- Major Version Launch: v2.0.0 represented a complete architectural rewrite

Methodology

This analysis was performed by: 1. Collecting release notes from GitHub API for versions v2.0.0 through v2.8.5 2. Parsing release notes to extract individual changes 3. Classifying changes using keyword matching and pattern recognition 4. Aggregating statistics and generating visualizations
